Description

Key Data is the leading provider of real-time data for the alternative accommodations sector. Through direct integrations with the reservation systems for vacation rental professionals and resorts around the world, Key Data aggregates historical and forward-looking data in real time to create the industry's leading analytics dashboards for vacation rental managers, DMOs, and real estate professionals.

Benefits

Key Data provides business intelligence and benchmarking tools for the vacation rental space thanks to integrations with your PMS, we provide accurate, reliable data that is anonymized, confidential, and trusted.

Onboarding

1. The property manager must contact KeyData via the following form on their website ([Contact Key Data](#)).
2. The property manager must sign the collaboration contract with KeyData (this contract is between the property manager and KeyData).
3. We recommend organising a demo with KeyData in order to see the product in more detail.
4. The property manager must request the activation to the Avantio Support Team.
5. The support team will provide the API credentials together with a link to the onboarding form for KeyData.
6. The property manager must fill in the form with the required information as well as the credentials provided in the previous step.

7. Within 1-3 days KeyData will get in touch with the property manager and activate the connection.

Login

After activation, you will be able to access the KeyData Dashboard from your homepage in the VRMS, under **Connected Applications**.
