Cells WITHOUT a booking

Left click:

Left-clicking an empty/unbooked cell displays the Configuration Panel, showing all new available actions:

The screenshot shows a calendar interface with a configuration panel on the right. The panel is titled 'Ocean View Penthouse II' and contains the following information:

- Rate:** 02 Oct 2021 - 02 Oct 2021, 225.00 US\$
- ADR:** October ⓘ
- Occupancy rule:** 02 Oct 2021 - 02 Oct 2021, Min. days: 1
- Change History:** Latest update 29 Sep 2021

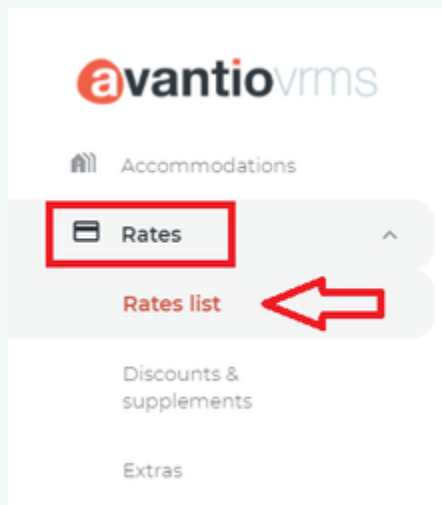

A red arrow points to an empty cell in the calendar, indicating that clicking it opens the configuration panel.

This configuration panel on the right is explained in the [Configuration Panel](#) section.

If there is no rate rule set up yet, clicking the cell displays an alert pop-up so that the rate rule can be configured:

By clicking on "Configure" the rate tab opens up where you can create the rate.

Change of price in the Portals

Please note that this information shows the data that would correspond if a booking were registered according to the standard rules of the VRMS. Keep in mind that the final price of a booking may be influenced by other factors such as: increase in the portal, compatibility of discounts or supplements or customisation of the rates in the portal itself.

For more detailed information, there is a direct link to these rules:
